My intent is to place my puppies in their new homes forever. If you are a veteran herding/working dog or a dog sports competitor please let me know prior to completing this questionnaire.

First, we would like to thank you for choosing Tin Roof ACDs and congratulations on your decision to invest in a purebred Australian Cattle Dog (ACD)! In our breeding program, the required and most recommended health testing has been on the parents of our puppies. The Tin Roof policy is to do our best to produce puppies that are within the breed standard in type and temperament. We do our best to provide our customers with dogs that will have the best possibility of living long, sound, healthy lives . We carefully analyze the genetics, pedigrees and structural qualities of each potential parent prior to breeding. We pride ourselves on matching pairs that will complement each other to compliment one another, the offspring and the ACD breed. The genetics are very important! Healthy dogs make happy families. I hope to be able to match you with your next family member to create many years of memories. with.

Please answer the questions honestly. There are no right or wrong answers. I will review the applications, and create a list of prospective puppy parents. I will have Willow Radiographed at about day 59-60 to see if we can tell how many pups are going to be coming out. I will share that info with everyone once the x-ray is done.

Thank you again for choosing Tin Roof Australian Cattle Dogs. We look forward to making you an addition to our ACD (Australian Cattle Dog) family.

Once you complete your Puppy Application you can email it to tinroofacd@gmail.com as an attachment or copy and paste it in the email message. Please do not hesitate to contact us with any questions.
